General Description of Risks Management Division

3

Businesses Risks Section

4

Study and analyze the risks of implementing or not implementing strategic initiatives, while monitoring internal and external environmental variables affecting the strategic path of the Central Bank and analyzing data related to internal and external variables that may lead to reputational risks.

Economic Risks Section

Study and analyze
economic risks and
prepare economic
reports and opinions at
the (domestic, regional,
and global) level that
assist decision-makers
to manage Iraq's
macro-economic policy.

Operational Risks Section

Prepare and develop an operational risk framework and manage data on operational events, in addition to identifying potential operational risks of bank's departments, analyzing, assessing, treating, and monitoring them. Also assessing plans of emergency and **business continuity for** the Central Bank of Iraq.

Financial Risks Section

Working to manage investment risks by providing advice and consultation on risks (credit, liquidity, and market) taking into account external events that have a direct financial impact on the Central Bank.
